---

# The supports the following functions

## User Management Functionality

- User Registration by specifying name, telephone number, email, and password
- Registered user to Log-in with email and password
- User to logout

## Company Management Functionality

- Admin user can create / update / delete company information
- General user can view company information

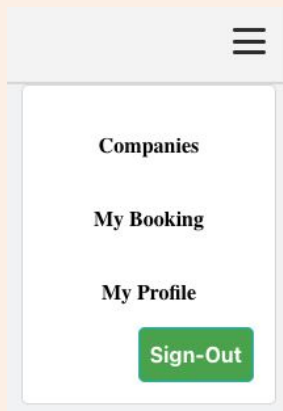

## Interview Session Management Functionality

- General user can create (book up to 3 interviews)/view/edit/delete his/her own company interview bookings
- Admin user can create (book up to 3 interviews)/view/edit/delete any company interview bookings

# Additional functions

## Responsive

- When opened on a mobile device, the navigation menu transforms into a hamburger menu

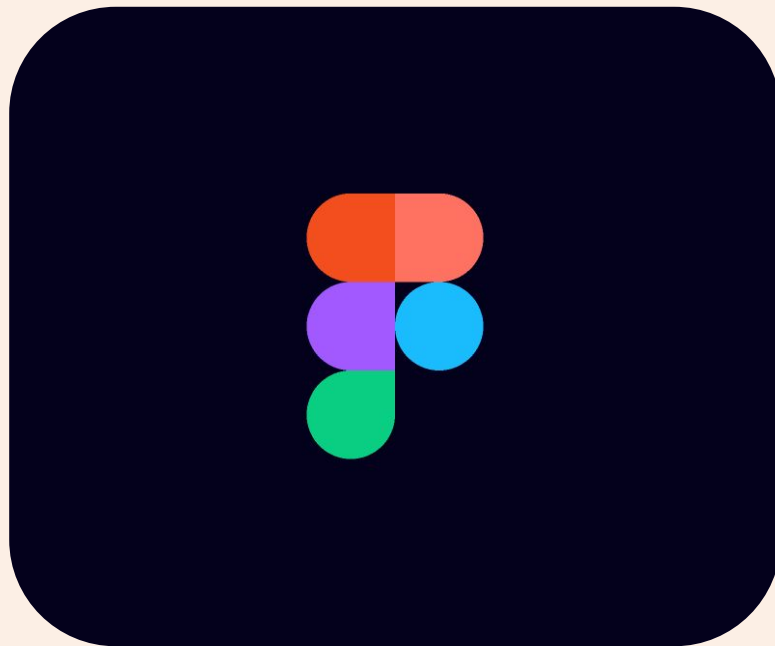

## Profile Page

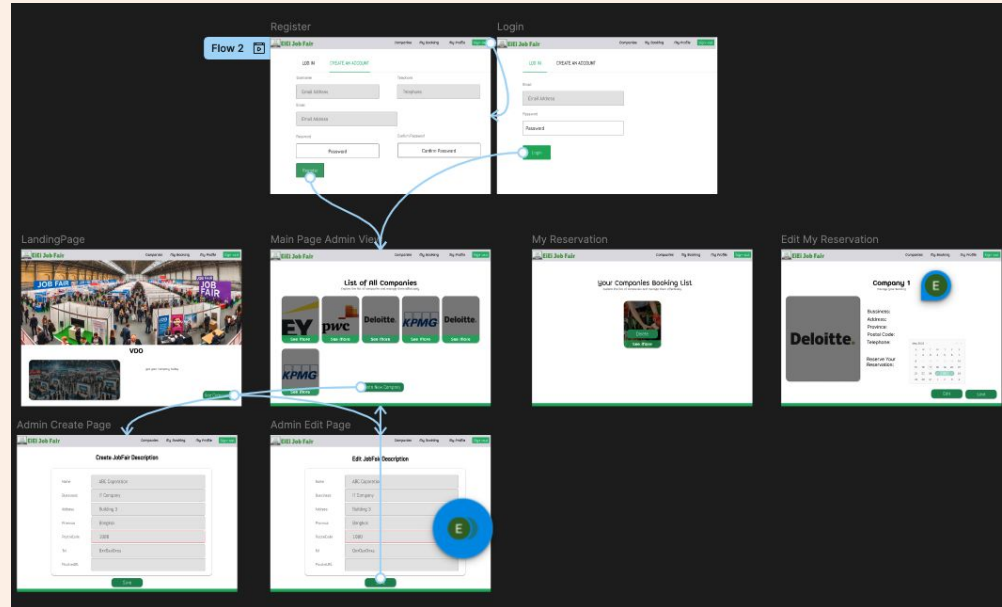

When the user clicks on a specific button or navigates to the profile page, it should display the user's personal details. These details typically include:

- **Name:** Display the full name of the user.
- **Email:** Show the email address associated with the user.
- **Phone:** Provide the contact number of the user.
